

DR Retrofit Kit for Portable X-Ray Systems

An affordable and lightweight upgrade kit for your DR System

UNIQUE FEATURES OF THE DR UPGRADE KIT

- Will house DR components from ANY make, model and size DR panel, tethered or wireless
- Adds very little weight to your existing SR 130 X-Ray machine
- Installation is quick and easy!

Laptop Holding Tray

- Holds the laptop safely and securely to the holding tray
- Tray slides easily on and off the top of the SR130 cart
- Laptop and tray be removed as one unit and carried together in the laptop bag.

Cassette Box Cover

- Constructed of lightweight fiberglass and weighs less than 1lb.
- Fits securely over standard cassette boxes that come with the SR130.
- Protects the Panel Control Unit, Laptop Power Supply, and Surge Protector from the elements.

Removable DR Carrying Case

- Hooks securely to the X-Ray cart when the Cart is being moved in and out of facilities.
- Un-hooks from the X-Ray cart for loading and unloading from the vehicle.
- Protects the panel from damage during transport and from the weather.
